PROFESSIONAL SUMMARY

Full-Stack Web Developer with hands-on experience in PHP, Laravel, React, JavaScript, and AWS, specializing in building scalable web applications, RESTful APIs, and IoT-integrated systems. Proven track record delivering end-to-end solutions from database design through production deployment, across client-based, freelance, and internship engagements.

TECHNICAL SKILLS

- Languages: PHP, JavaScript, TypeScript, SQL, CSS, HTML
- Frameworks & Libraries: Laravel, CodeIgniter, React, Node.js, Express, TailwindCSS
- Databases & Backend Services: MySQL, Supabase, REST API Development
- Tools & Platforms: Git, GitHub, Docker, AWS, Linux Server Administration, Tailscale, Vercel, Cloudflare, Namecheap, DuckDNS
- Other: IoT System Integration, Version Control, Agile Project Delivery

WORK EXPERIENCE

Web Developer Intern / Part-Time Web Developer - Negosyolab PH September 2025 - May 2026

- Completed a 486-hour internship and was retained as a part-time developer to continue and maintain in-progress software projects
- Developed and maintained multiple full-stack web applications and hardware-integrated (IoT) systems using PHP, CodeIgniter, and JavaScript
- Managed AWS server infrastructure to support version control and team development workflows

Freelance Full-Stack Developer - Self-Employed 2025 - 2026

- Developed and deployed custom digital solutions for independent clients, managing database design through frontend UI implementation
- Managed full project lifecycles including client onboarding, requirements gathering, and deployment, completing projects in an average of 5 to 6 weeks

PROJECTS

Client Work

- Armonyx Fitness - Built a full-stack gym management system handling registrations, attendance, and subscriptions for 500+ active members across 4 branches
- Issue Report Management System (IRMS) - Developed a centralized ticketing platform for cross-platform issue tracking, reducing resolution time by 40 percent
- Chaos Vape Shop - Built a full-stack voucher and redemption system for customer promotions
- ESP32-Powered Weighing Scale - Engineered a high-precision IoT weight-detection system deployed for live corporate events at Okada Manila, featuring real-time data transmission and local server sync supporting 10 concurrent devices
- Oneshot - Built a scheduling tool for photobooth businesses to manage bookings and coordination
- Eclaro Academy Evaluation Capstone - Developed an automated faculty and student evaluation system streamlining institutional grading, performance analytics, and academic feedback

Capstone Project

- BuildXDesigner - Served as lead developer for a drag-and-drop website builder with an integrated database, email, and payment systems

EDUCATION

Bachelor of Science in Information Technology

Quezon City University - Cum Laude, 2022 - 2026

PROFESSIONAL DEVELOPMENT

- CyberSafety Seminar - Safer Internet Day, Quezon City University (March 7, 2025)
- Tech-Preneurship: Empowering CCS Students for Innovative Ventures - Quezon City University (August 27, 2024)
- Networking Basics - Cisco Networking Academy (March 16, 2026)
- Introduction to Data Science - Cisco Networking Academy (March 20, 2026)
- Introduction to Modern AI - Cisco Networking Academy (March 23, 2026)
- Introduction to Cyber Security - Cisco Networking Academy (March 23, 2026)
